Art Van Maren
Van Mar Construction

Re: Reference

Dear Art,

We are absolutely thrilled with the work you and your team did on the Richmond Hill Youth Hub here in Richmond Hill. You allowed input all throughout the process, and were open to changes and feedback at all times. When we visited the site, you and your team were always willing and eager to show us around and answer all and any questions we had.

You understood the unique needs of our clientele and built a building that will serve us and our kids well for many years to come. Not only is the quality of the building high, but you delivered it on time.

What truly separates Van Mar from others is your commitment to service. This was a complicated multi-use building and your team handed it so well and demonstrated incredible customer service throughout.

We would highly recommend Van Mar Construction to anyone looking to build a new hub project if they were looking work with true professionals with a commitment to service.

Lastly, thank you for your commitment to our kids and our community. Not only did you build an amazing new hub that will provide much needed housing to both youth and members of the community, but you did so by constantly giving back throughout.

If anyone would like to further about our experience working with you and your team, I would welcome the opportunity.

All the best,

Michael Braithwaite
Executive Director
